About This Content

Labyrinth

The gods are testing you!

Master the labyrinth by finding the right way out. You have three attempts. If, in the eyes of the gods, your efforts have been strong enough, they will certainly allow you yet another attempt.

The labyrinth is made up of three levels and each new level is a little more difficult than the level before. If you manage to get out, you will be richly rewarded!

In order to move forward in the labyrinth, you must shoot the ball into the correct ramps. Each ramp stands for one of the cardinal points. An indicator field at the bottom of each ramp is lit up whenever it is possible to walk in this direction. The light, however, does not show you whether it is really useful to go that way. You must find that out on your own.

On your way up, you can find 6 treasures. Find them all and the gods will be favorably disposed towards you!

- Fast, but fair gameplay.
- Mystical atmosphere.
- Mechanical labyrinth controlled by your playing abilities.

-
- Only one ball in the playing field.
 - Many extra balls are possible.
 - As usual, the table can be tested before buying it
